

Denis Tišljar

Frontend developer

Through work on UI/UX design, I discovered that I am interested in the application development process within the scope of frontend development. I received additional education in this area through a course in the college "Algebra" in Zagreb, and since then I have been working on further improving my frontend development skills

Education

6 month frontend developer education specialize in reactJS at "Algebra" in Zagreb

SEPTEMBER 2022 - MARCH 2023

Bachelor's degree in information technology engineering, department of informatic design at Zagreb University of Applied Sciences

OCTOBER 2018 - JANUARY 2022

Work Experience

Frontend developer @ Digisence

NOVEMBER 2023 - PRESENT

- ToonkidsTV - a React native application for streaming a cartoon service that includes authorization and users with Firebase
- Vatreini Put - helped maintain a digital solution for tracking collectibles in the digital environment (football collectibles for HNS)
- Websites for independent businesses (Apartment rentals, Fintech, Event management) - made in ReactJS, NextJS, WebFlow.
- React native app - developed design in figma and worked on the frontend on an app with a social approach to tourism

UI/UX Design Intern @ Bit4Bytes

DECEMBER 2021 - JUNE 2022

- Worked on designing web applications in figma: design identity, layouts, user flow etc.
- Graphic design work in Photoshop and Illustrator: poster design, image modifications etc.
